OPTIMISE LEARNING ONLINE TUTORING SERVICES

WELCOME

At Optimise Learning we understand that for a variety of reasons, not all students achieve to their academic potential at school.

Educational research consistently reveals that the most effective way for students to learn is to be taught individually, and to receive explicit, ongoing feedback.

Individualised lesson content and explicit feedback is provided to students in each of our online tutoring sessions. Also, we use brain researched teaching strategies that enhance student learning in every lesson.

Our online tutoring services have the potential to accelerate your child's learning and improve their academic achievements at school.

OPTIMISE LEARNING

ONLINE TUTORING SERVICES

OPTIMISE LEARNING provides online tutoring services to students from Preparatory to Year 12, throughout Australia.

Our online tutoring services cater for a vast range of students, including:

- Students who are underperforming at school.
- Students who require extension.
- Students who need extra assistance to keep up from time to time.
- Students who are preparing for assessments.
- Students who have a diagnosed learning disability.
- Students who are being homeschooled.
- Students who are gifted and talented.
- Students whose first language is not English.
- Students who are absent from school for significant periods of time.
- Students who require assistance with homework or other tasks that have been set by their teacher.
- Students who are looking to advance their skills in problem solving, critical thinking, creative thinking, or mental mathematics strategies.
- Students who want to learn another language, such as Mandarin or French.

OPTIMISE LEARNING

ONLINE TUTORING SERVICES

Our Co-Founders, Tracey and Peter Hand are highly qualified passionate and experienced educators.

With over 14 years spent at universities studying education and 70 years of teaching experience between them, Tracey and Peter understand how students learn most effectively.

Tracey and Peter also recognise that students who receive a quality education have a distinct advantage, and that all students have the potential to learn if they are provided with the right teaching, at the right time.

Tracey and Peter's inability to source passionate, caring and exceptional tutors they could really trust to tutor their own children, led to Tracey and Peter creating Optimise Learning over 7 years ago.

Underpinning Optimise Learning's approach to educating students is Tracey and Peter's keen desire to provide students of all ages and abilities with the opportunity to access **personalised academic tutoring services of the highest standard.**

OPTIMISE LEARNING

ONLINE TUTORING SERVICES

Our online approach enables us to source the best tutors from all over Australia. The right tutor for your child might not live in your neighbourhood, or even your state!

OPTIMISE LEARNING TUTORS

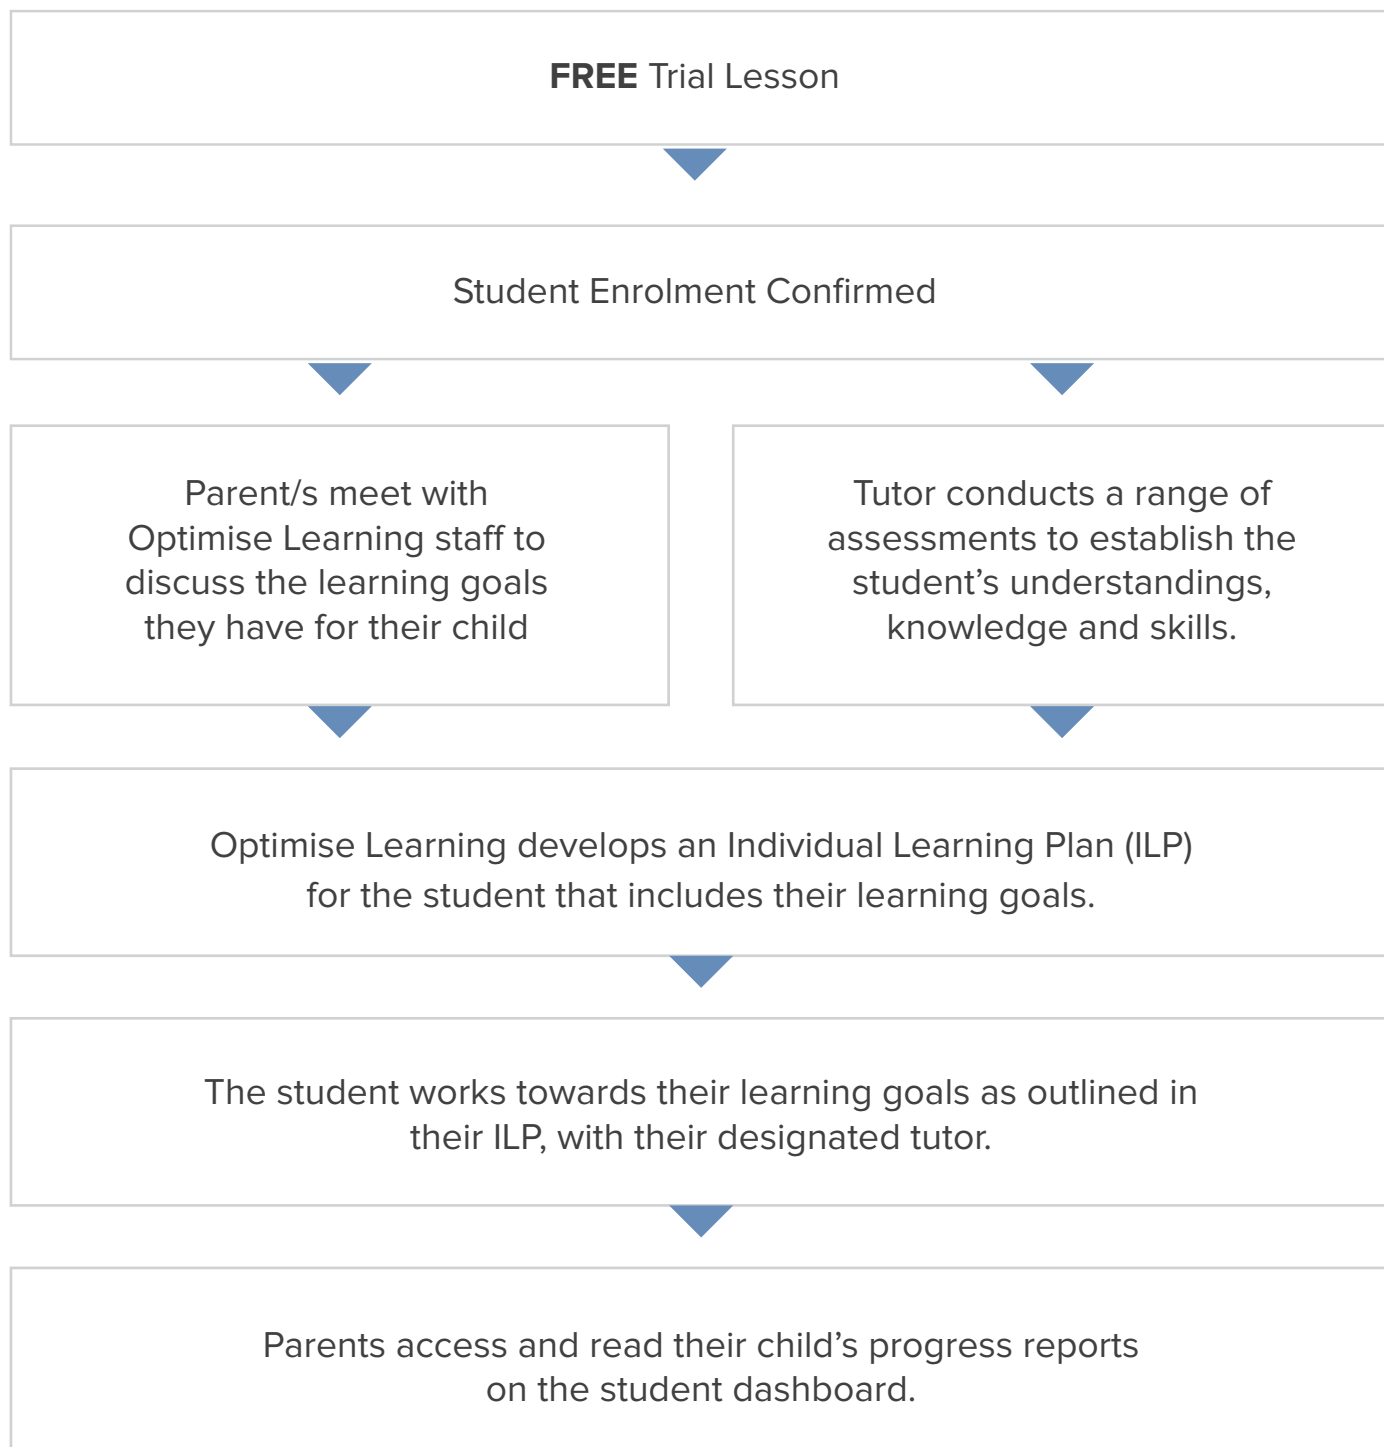

- ✓ Are qualified teachers, pre-service teachers or studying a specific subject at university, that would benefit a student requiring tutoring in that subject.
- ✓ Have a current and positive Working With Children Check.
- ✓ Have undergone an extensive application, induction and training process.
- ✓ Use lesson plans and teaching resources that have been specifically written and developed for Optimise Learning's Tutoring Services. All resources are based on and reference the Australian National Curriculum, which is exactly the same curriculum students in Australia are studying at school.
- ✓ Use brain compatible teaching strategies throughout their tutoring sessions.
- ✓ Work in partnership with teacher/s and the Education Team at Optimise Learning to develop individualised lessons for students.
- ✓ Tutor students online throughout Australia from Preparatory to Year 12.
- ✓ Write tutoring session overviews, which can be accessed and read by parents on their child's student dashboard.

Student Enrolment Confirmed

Tutor conducts a range of pre-assessments to establish the student's current level of skill, understandings and knowledge in a curriculum area.

The student works with their designated tutor to develop and extend their skills, understandings and knowledge in the specified curriculum area.

Parents access and read their child's progress reports on the student dashboard.

OPTIMISE LEARNING

TESTIMONIALS

“When you are sitting in a classroom with a teacher and 20 other kids it is very difficult to speak up about issues you might be having, or problems you don’t understand or maybe you’re not really getting a good grasp on the content in class. When you are able to supplement that with one-to-one tutoring you are able to go through the specifics of what you don’t understand or ask the questions that you have. You can pick the areas that challenge you and strengthen them by having one-to-one lessons with a tutor. My tutor at Optimise Learning has helped to improve my marks, and to keep organised and on top of my assessments. Having online tutoring with Optimise Learning has really helped me.”

George – Year 11

Geelong Grammar School

“My daughter has had maths and english tuition through Optimise Learning for over 18 mths. In this time she has grown in confidence in both subjects and is achieving her academic goals. Tracey and Peter have an individualised approach to her learning needs and Tutors are chosen carefully and well. I highly recommend Optimise Learning for anyone considering extra tuition.”

Julie Wilson

St Aidan's Anglican Girls School

“Tracey from Optimise Learning has always meticulously chosen the right tutor for our daughter. We embarked on the online tuition sessions with Peter and we have found them to be incredibly successful. Peter is engaging and motivating and our daughter has found the sessions to be both valuable and enjoyable, so much so that she now prefers them to the in-person tutoring she was having. Communication via an online platform has proven to be very easy and effective. As a family we have gained an afternoon at home which allows the rest of the family to continue with their own pursuits without interruption and the sessions are flexible enough to accommodate unexpected changes in routine if and when they arise. Online tutoring with Optimise Learning has been a worthwhile and rewarding experience and one we will continue to pursue.”

Jane Kent

Brisbane Girls Grammar
